To our Opportunity Austin Investors,

From record corporate relocations to the highest level of venture capital funding since the dotcom era, and one of the lowest unemployment rates in the country, 2014 was a banner year for the greater Austin region.

It was another period of significant progress in each of the Opportunity Austin 3.0 focus areas: Economy, Talent and Place.

The team led the charge in 64 announcements of companies relocating to the area, the most since the inception of Opportunity Austin in 2004. These companies—diverse employers including athenahealth, Box, Charles Schwab, Dropbox, Firefly Space Systems, Rackspace and Websense—will create thousands of new jobs. A complete list of announced newly located operations can be found in the Economy section of this report.

Perhaps just as important, 63 local businesses announced they are expanding operations in the region. The tally of announced new jobs from companies like Harte Hanks, Indeed.com, and Yodle exceeds 3,700. Another area of our business expansion and retention efforts made aviation history. We were all excited to see British Airways launch its inaugural 787 Dreamliner flight between Austin and London, the first transatlantic nonstop for the city of Austin. The estimated impact to the greater Austin region is compelling: more than 1,100 new jobs, directly and indirectly, and tens of millions of additional dollars annually in related economic activity.

These results are key indicators of the healthy business climate and great quality of life that we have worked together to achieve over the past several years. Since it began, Opportunity Austin has worked to add an estimated 263,400 new jobs with a payroll increase of $13.9 billion to the greater Austin region.

Our nationally recognized public education initiatives also achieved high water marks in 2014. A record 84 percent of our region’s approximately 16,000 high school graduates applied for college. Through our Financial Aid Saturday program, student filings of the FAFSA form in the region were up 11 percent, yielding students an additional $6.7 million in financial assistance over 2013.

With the passage of the November state constitutional amendment, there was progress in 2014 on transportation by securing funding for future roadways. However, we were disappointed in the outcome of the city of Austin Road/Rail bond election especially as transportation and traffic congestion relief are our biggest issues based on retention interviews with our portfolio companies. We fought hard for the transportation bond package with the hopes of meeting the needs of commuters today and in the future. There is no magic bullet to solve all of our transportation problems. We remain committed to developing and advocating for various solutions to address the challenges we face.

While the Austin region today remains at the top of several lists as a dynamic place to work and live, we can’t become complacent and rest on past successes. Our mission is to sustain the momentum by proactively addressing key challenges, all to ensure the Austin region remains a great place to live, work and play for generations to come.

On behalf of Opportunity Austin, thank you for your continued support.

GROWTH (MID-STAGE) - $1 - $10M
EDGECASE    Square Root    TurnKey VACATION RENTALS
Umbel    Set.fm

SCALE (LARGER STAGE) - ABOVE $10M
Novati Technologies, Inc.    Chaotic Moon Studios

DELL MEDICAL SCHOOL & INNOVATION DISTRICT

• Innovate Austin will focus on supporting the Dell Medical School and the Innovation District as the pinnacle of our innovation ecosystem.
• UT-Austin is the first Tier-1 university in 50 years to establish a new medical school. The inaugural class kicks off in 2016.
• Seton Healthcare Family’s new 211-bed teaching hospital, Dell Seton Medical Center at The University of Texas, is set to open in 2017.
• Over $2 billion annual related economic impact anticipated with estimates of over 15,000 new, permanent jobs for the greater Austin region.
Education & Talent

The Human Capital

Through investments in Opportunity Austin, we market the greater Austin area to the world as the “Human Capital,” a theme we coined to reflect what draws so many people and companies to our region. We continue to invest in a broad range of programs, including those that improve college and career readiness and workforce development. Our programs have been nationally recognized as a model for groundbreaking talent pipeline initiatives. Last year, the American Chamber of Commerce Executives honored our efforts with the nation’s Regional Innovation Award for distinction in education and workforce initiatives.

85% OF UNEMPLOYED WORKERS DO NOT QUALIFY FOR 70% OF THE AVAILABLE JOBS

Success, however, brings new, more complex challenges. At the end of 2014, about 11,000 fewer Texans in the greater Austin region were unemployed. We ended the year with an unemployment rate below four percent. Yet, we have a challenge of supply and demand. Employers have posted about 43,000 open jobs; half require at least a bachelor degree, and another 14 percent require an associate degree. Of the 39,000 in the area that are unemployed (Texas Workforce Commission/Jan. 2015), about 85 percent have less than an associate degree.

43,574 AVAILABLE JOBS POSTINGS*

*Austinchamber.com/jobopenings (Feb. 13, 2015)
Matching Talent with Workforce Needs

In 2014, we continued to invest and support programs to address the gaps with several initiatives:

• Partnered with Austin Community College to enroll 400 people in short-term, intense **Java training certification**.

• Supported Austin Community College’s successful **bond election** to expand IT and health care training facilities in Williamson, Hays and Travis Counties to meet the acute needs of employers.

• Established **Operation Austin**, a unique initiative with Fort Hood to connect about 8,000 exiting soldiers and their families with Austin-based employers.

• Drove programs to increase the Austin region’s direct college enrollment rates, with increases in key sub-metrics: **84% college application rate**, a milestone, and a **64% college/career readiness rate**.

• Facilitated about 30 events to help students figure out how to pay for college. Through **Financial Aid Saturdays**, promoted in English and Spanish, we **helped 2,700 families** submit federal financial aid forms, up 11 percent over 2013. About **57%** of the Class of 2014 submitted a FAFSA form by the end of August, the best performance of any region in the state.

I was impressed by the progress that students are making, and your community’s [greater Austin region] commitment to their success.

I hope that other business leaders can learn, as I did, from your collaborative approach to boosting college going and completion rates, and from the use of innovative strategies and data systems to boost career and technical education participation.

Arne Duncan
U.S. Secretary of Education
July 30, 2014

Follow up to Austin Chamber Roundtable on College Access for Austin-area Students

• Introduced 23,000 greater Austin region high school students to careers and the post-secondary education they require through the regional Skillpoint College/Career Readiness Expo.

• Developed and distributed unique 2014 Progress Reports for 10 independent school districts that monitored progress on key measures and reported on out-year school district targets for direct college enrollment, college readiness, high school graduation and TAKS pass rates. The independent school districts included Austin, Del Valle, Eanes, Hays, Hutto, Lake Travis, Leander, Liberty Hill, Pflugerville, and Round Rock.

PLACE
Air Services

Air Service Task Force

In 2008, the Austin Chamber of Commerce created the Air Service Task Force to assist the Austin-Bergstrom International Airport (ABIA) with recruitment and retention of air service to Central Texas. Comprised of industry, education and aviation partners, this task force advocates for additional infrastructure to the airport, additional nonstop flights, and additional carriers to diversify ABIA.

As a result of our efforts, along with immense local business support, ABIA saw record-breaking passenger numbers in 2014, with more than 10.7 million travelers. This is the fourth consecutive year ABIA has set a record for passenger traffic. Airport growth is expected to continue with additional routes, carriers and infrastructure.

This year, we saw Austin’s first transatlantic nonstop flight to London make history for our region, with over $70M in economic impact and over 1,100 new jobs, and put Austin on the map as an international destination. Other nonstop international destinations at ABIA include Toronto, Cabo and Cancun. We continue to seek new opportunities to diversify our airport.

RECORD-BREAKING PASSENGER NUMBERS FOR ABIA

- More than **10.7 million** travelers in 2014
- **4th** consecutive year of record-setting passenger traffic
- **2nd** fastest-growing airport of its size (medium hub airport)
- **48** nonstops served by **14** carriers
Transportation & Infrastructure

In May, the Central Texas Regional Mobility Authority opened the Manor Expressway (290 Toll) following three years of construction. The Expressway tripled the previous capacity of US 290 East between US 183 and SH 130. It is a 6.2-mile limited-access road, including three tolled lanes in each direction and three non-tolled frontage lanes in each direction, plus a 10-foot-wide, 6-mile shared use path for pedestrians and bicycle travel and recreation. The Manor Expressway is the first of several major corridors to open as supported by Take On Traffic.

In June, the Texas Department of Transportation (TxDOT) opened-up the improvements at State Highway 71 (SH 71) to remove all stop lights from the Austin-Bergstrom International Airport to downtown Austin. The SH 71 mainlanes between US 183 and Montopolis Drive were upgraded to a controlled access facility to address congestion and travel delays by constructing six new mainlanes, three in each direction, underneath Riverside Drive and constructing six frontage road lanes, three in each direction. Prior to this project, the intersection was a six-lane divided roadway managed by a traffic signal at Riverside Drive.

In January, Austin saw its first major rapid bus transit service open with the launch of the 801 line from Capital Metro. Following the success of this route, Capital Metro’s second phase of MetroRapid launched with the 803 line this past August. The two MetroRapid routes, which roughly form an X across the heart of Austin, will serve approximately 25 percent of Capital Metro’s service area, providing service along some of the area’s most heavily trafficked routes. These improvements are projected to increase ridership capacity and reduce commute times.
Projects Underway

**IH 35** design continues to improve and increase capacity to accommodate Austin’s growing population. TxDOT continues to refine the Corridor Implementation Plan for Travis County based upon further development and public input. Current efforts include development of 30% Schematics for the entire corridor to further progress the design process. Consideration of all regional mobility projects is crucial in the evaluation of improvement phasing along IH 35.

Construction also continues on **MoPac Express Lanes** with a projected opening in late 2015. Currently, the project, which will give drivers the option to bypass congestion on the 11-mile stretch of MoPac between Parmer Lane and Cesar Chavez Street, is 61 percent complete.

Another pivotal project underway is **The SH 71 Express Project** – a planned 3.9-mile limited-access toll road beginning at Presidential Boulevard at ABIA and extending east, ending at SH 130 near Onion Creek. The project will include two new toll lane overpasses at FM 973 and SH 130. Construction is scheduled to start in early 2015 and to be completed by late 2016.

TxDOT is also working with the Central Texas Regional Mobility Authority and regulatory agencies to study a possible solution for improving mobility in the rapidly growing area of northern Hays and southern Travis counties – **SH 45SW**. This combined effort includes an environmental study of an area between MoPac and FM 1626. Finally, design and engineering continue for the **US 183S Bergstrom Expressway** with hopeful approvals secured in 2015.

New State Funding

With the passage of the November 2014 state constitutional amendment, TxDOT Austin District expects to receive $120 million in funds this year. Matched by $30 million in local funds, work will begin soon on $150 million of projects to improve connectivity, regional corridors, repair of energy sector roads, and maintenance of existing roadways.

Proposed projects for funding are listed by county below.

**BASTROP**
- SH 71 from W of SH 95 to E of SH 95

**HAYS**
- IH 35 from Blanco River to RM 150
- RM 1826 from Travis C/L to Nutty Brown Rd.

**TRAVIS**
- IH 35 from Stassney to Wm Cannon Dr.
- IH 35 from S of LP 275 to N of FM 1626
- RM 2244 from Redbud Trail to Buckeye Trail
- RM 2222 from W of McNeil Dr. to E of McNeil Dr.
- SL 360 from Colorado River to Walsh Tarlton Ln.

**WILLIAMSON**
- IH 35 from RM 620 to SH 45N

Regional Partners

The success of Opportunity Austin is based on the ongoing collaboration with public and private leaders throughout the five-county area. Our impactful initiatives in economic development, transportation, infrastructure and talent would not be viable without the active, regional core leadership from our OA Investors. Through our work together, each of our communities have been recognized for a broad range of unique strengths and personalities that combined make greater Austin the best region in the nation.
