Message to Investors

To our Opportunity Austin Investors,

We are pleased to report another strong year of economic growth and development in 2016. Performance of the Austin area is especially encouraging as we approach completion of our five-year plan focused on three strategic areas. They include growing our economy, increasing our talent and improving our infrastructure to ensure Austin remains a great place to work, live and play for everyone in our region.

For more information on overall progress, please see the Opportunity Austin 3.0 mid-course highlights in this Annual Report.

In the area of attracting and retaining companies, the Austin region turned in one of its strongest performances on record. The combined number of relocations and expansions in 2016 was the highest ever tracked:

- 81 local businesses announced they were expanding workforces, 13 percent higher than the previous mark set in 2004. This translated into the creation of more than 5,300 new jobs.
- 50 companies new to the Austin region announced they were opening operations. This total ties the third strongest year (2013) and is expected to create 4,800 new jobs.

While attracting additional venture capital funding continues to be challenging, the region experienced 112 deals and about $834 million in funding – the most in Texas. The largest number of deals and dollars invested were in the Internet sector. In addition, Austin was ranked No. 1 in the annual index of the top performing metropolitan areas in America for entrepreneurial activity by the Kauffman Foundation.

Progress continued in the areas of talent and education. Our volunteers worked with about 16,000 high school students and their parents across the region to complete college financial aid forms (FAFSA), which generated over $130 million in financial aid for our students.
More progress was made on expanding air travel options for the Austin region. New non-stop service was announced to Frankfurt, Germany, and Guadalajara and Mexico City, Mexico. There are now 60 non-stop destinations via ABIA, up from 51 the previous year.

One of the most significant accomplishments in 2016 came from advocacy efforts to help pass a historic transportation bond package for the City of Austin. With financial support from Opportunity Austin investors, we worked together with the mayor, business, active transit and bicycle advocacy groups to raise $1 million to promote and ensure the largest single transportation bond in Austin’s history would be approved by voters overwhelmingly.

While approval of the mobility bond package was one of several major accomplishments, the need for our community to stay focused and fight complacency with respect to economic development has likely never been greater. We have one of the strongest economies in the country, but there are no guarantees it will stay that way, so we must remain vigilant and continue working to ensure our region’s success. This includes advocating for critical transportation projects in Austin and throughout the area as well as addressing mounting affordability concerns. In a recent survey sponsored by the Austin Chamber, 82 percent of Austin registered voters said the city has an affordability issue.

In addition, while the latest available data reveal adult and child poverty rates – key OA success metrics – declining in the Austin MSA over the past five years, there is more to be done, including additional funding and programs for workforce training, especially for those in need.

Lastly, the Greater Austin Economic Development Corporation board approved efforts in 2016 to consider and fund the next phase of Opportunity Austin, currently labeled OA 4.0. We expect to continue evaluating the fundamental needs of our community to position the business community to do all possible to ensure a prosperous regional economy in Central Texas for years to come.

Thank you for your continued support of Opportunity Austin.

Poverty Rates Declined Throughout Region

The most recent data available through 2015 show the estimated total poverty and childhood poverty rates declining throughout the Austin MSA, Travis County and City of Austin. More diligence is needed to remained focus on this important metric.

- 3,072 Jobs in 2014
- 4,470 Jobs in 2015
- 5,353 Jobs in 2016
50 Companies relocated to the region

4,814 Direct New Jobs were brought to the region
EMBARK VETERINARY
Leverages the newest DNA, tech, and biotech technologies to provide owners and veterinarians individualized pet care products and services.

FACTOM
Brings honesty and transparency to data systems using the block chain. With their tools, you can publish a mathematical proof for any event or record.

EMERGING
Received less than $1M in funding or revenue under $1M

2016 A-List Winners

IDEALSPOT
A commercial real estate application that matches tenants to their ideal locations and building owners and managers to their ideal tenants by applying machine-learning, predictive algorithms to real-time market data.

RE:3D
Gigabot, re:3D’s flagship technology, enables industrial strength, large format 3D printing at an affordable price point.

GROWTH
Received funding between $1M-$10M or revenue of $1M-$20M

ESO SOLUTIONS
Builds software that helps healthcare and public safety professionals improve community health through the power of data.

FIREFLY SPACE SYSTEMS
A satellite launch company that provides low-cost, high performance space launch capability for the underserved small satellite market, where secondary payload launches are often the only option.

NSS LABS
A world leading security product testing laboratory, offering in-depth security product test reports, research, and analyst services.

OJO LABS
A world class team of engineers, data scientists, product gurus, and proven entrepreneurs who are building an artificial intelligence technology that replicates, adapts, and scales human conversations.
CIVITAS LEARNING
Provides a scalable analytics infrastructure for colleges and universities to transform disconnected data into actionable insights that help every student succeed.

MODERNIZE
Connects homeowners with the best pros specializing in four areas of exterior home improvements: solar panel installations, roofing repair and installation, window replacement and HVAC solutions.

SCHEDULE
Received funding above $10M or revenue of $20M+

THE ZEBRA
A car insurance comparison marketplace and digital agency. With just a zip code and car model, drivers can shop quotes in real time from over 200 insurance companies, learn about coverage options, and secure policies.

TRENDKITE
Helps PR professionals build a timely, highly accurate picture of their brands’ media coverage with ease.

EDUCATION

DTC70 Partnership Highlights

National Recognition

The Austin Chamber and its partners are working to achieve our goal of a regional 70 percent direct to college enrollment rate. The partnership has been recognized by the White House, ACCE, and NLC as a best practice or strong regional model in 2015 and 2016.

Improvement in Student Financial Aid Awards, Research Shows

Over the last two years, national researchers from leading universities partnered with the Austin Chamber and eight local school districts to conduct a study on the effectiveness of text messaging campaigns on FAFSA filings. They recently released a study finding that when Texas students were reminded by text message to complete key college financial aid completion steps, they filed their FAFSA earlier and received up to $2000 in additional aid.

Summer Melt Program Expands Support to 10,000 Graduates

To remove college enrollment barriers, last summer DTC70 partners in nine school districts supported 10,000 high school graduates. The collaboration provided ground-breaking, real-time data on student completion status of key Austin Community College enrollment milestones to school district counselors, to more effectively target assistance. Counselors also supported students heading to other in/out of state colleges. Harvard University and UT-Austin Ray Marshall Center evaluations demonstrated DTC70 partners improved direct college enrollment rates for first generation, low income and underrepresented students who received summer college transition support by four to ten percentage points.
DTC70 ISD Partners Led State on FAFSA filings

Record Class of 2016 FAFSA filing rate.

80 percent of high school seniors who submit their FAFSA directly enroll in college. For over a decade, the Austin Chamber has worked with districts, businesses and over 150 volunteers to assist families in the FAFSA completion process through its Financial Aid Saturdays Program. This past spring, DTC70 partner districts achieved a 50 percent Q1 FAFSA filing rate for the Class of 2016 and topped the state in first-time FAFSA filings for this period.

Our volunteers worked with 16,000 high school students and their parents to complete the FAFSA which resulted in over $130 million in financial aid through the Financial Aid Saturdays program.

College In Sight

The Chamber helped to create CollegeInSight.com in 2016 to make it even easier for students and families to pay for college, especially with new advance filing deadlines.
Q1 First-Time FAFSA Filings

Financial Impact of FAFSA Filings Based on Average Aid Award

TRANSPORTATION & INFRASTRUCTURE

Transportation Bond Package

Austin voters approved largest bond package in history of Austin

The Chamber, with financial support from Opportunity Austin investors, worked together with the Mayor, business, active transit and bicycle advocacy groups to raise $1 million to ensure the largest single transportation bond in Austin’s history passed overwhelmingly. This has already leveraged an additional quarter billion dollars from TXDOT for Highway 360.

Austin Voters approved the $720 million roads-focused mobility bond package in November 2016 with 59.1% of the vote (passed by about 20 points) in favor of moving Austin forward. The important bond package was four times larger than any transportation bond previously approved in the City of Austin.

The bond plan includes spending in three separate buckets: $101 million for suburban highway and road projects; $482 million for investments along identified and to-be-determined corridors; and $137 million for local streets, pedestrian and bicycling infrastructure, and safety programs.

Since Opportunity Austin began, our transportation advocacy efforts, along with others, have now resulted in more than $7 billion in funded road infrastructure projects either completed, under construction, or will begin construction soon.

MOVE Austin FORWARD
Austin Energy
Rate Settlement

We advocated on behalf of members to propose new energy rates to help the business community and consumers. This led to the Austin Energy rate case settlement, approved by Austin City Council, which cut base electric rates paid by almost all customers, including large and small businesses, starting on January 1, 2017. Through a yearlong process, the city-owned utility worked with two-dozen parties to reduce Austin Energy’s revenue by a total of $42.5 million. Included in that was a reduction in commercial rates by about $37.5 million.

Air Services

Through our Air Services Task Force, we continue work throughout the year to further expand international non-stop flight options for Austin, such as Frankfurt, Germany; and Guadalajara and Mexico City, Mexico.

AUS continues to enjoy a healthy mix of air service offerings. There are 60 nonstop destinations, up from 51 last year, including seasonal and announced services.

British Airways added a first class option to London-Heathrow with the Boeing 787-9 aircraft, and the flight performance continues to exceed expectations.
Austin is the Best Place for Small Business in the U.S.

*American City Business Journals*

Austin is No. 1 on Kauffman Index of Startup Activity.

*Kauffman Foundation*

Austin tops “America’s Cities of the Future” ranking of cities most likely to prosper over the next decade.

MID-COURSE ASSESSMENT

Opportunity Austin 3.0

In September of 2016, Market Street Services provided a detailed assessment of programming for the purpose of reviewing progress and recommending adjustments since the start of Opportunity Austin 3.0 in 2014. For this effort, quantitative data was married with qualitative input from top Chamber leaders and staff and representative from public and private partner entities. These included 15 interviews, two focus groups, and an online survey of OA investors and partners that garnered nearly 100 responses.

Key Assessment findings

Overall rankings show that Greater Austin has maintained its position as one of the nation’s top performing metropolitan areas. Across six key areas that measure greater Austin’s economic entrepreneurship, business climate, quality of place, and overall performance, the Austin region finished at or near the top of the rankings.

Greater Austin’s private sector employment growth outpaced all of its peers over a one- and five-year period. From 2010 to 2015 the region added approximately 170,000 private sector jobs – a gain of 25.5%. Only San Jose (20.5%) saw five-year job growth above 20 percent. Likewise, year-over-year job growth in greater Austin (3.7%) outpaced all of its peer metros - only Raleigh (3.2%) and San Jose (3.1%) experienced year-over-year growth above three percent.

Opportunity Austin’s six target sectors have experienced considerable growth over the last five years. Compared to its peer metros, greater Austin ranked first in employment growth in all but three sectors: advanced manufacturing, creative and digital media, and corporate and regional headquarters. Overall, employment in Opportunity Austin’s target sectors grew by 33.4% – adding nearly 33,000 jobs to the regional economy since 2010.

Greater Austin is making strides in its efforts to slow the rise of poverty. While the region’s total and youth poverty rates still rank among the top third of comparison geographies, poverty in both categories rose at slower rates than all but two competitor metros in the previous five-year period.
Transportation is a key competitive concern for the greater Austin region. Public input participants frequently cited greater Austin's growing congestion as undermining business competitiveness and diminishing the region's quality of life. Various data measuring congestion and commute time substantiate stakeholder concern. As was highlighted by stakeholders during public input, addressing greater Austin's transportation challenges will require public and private consensus around both short- and long-term solutions.

Greater Austin's population growth over the last five years is the fastest among its competitor metros. Over a five-year period (2010-2015), the greater Austin region added roughly 270,000 new residents. Domestic and international migration continues to be a driving force propelling growth in greater Austin. From 2010 to 2015, the region attracted nearly 200,000 net domestic and international migrants.

Despite greater Austin's ability to attract and retain talent, workforce shortages in particular skills sets are a persistent challenge. While the Austin Chamber's partnership with the education community is cited as a model to follow, stakeholders noted that the Chamber's approach to workforce development may be due for adjustment.

Entrepreneurship is thriving in the greater Austin region. Whether it is academic spending on research and development or the percentage of greater Austin area workers who were self-employed, the regional innovation and entrepreneurship ecosystem ranked favorably against many of its peer metros. As new startups continue to fuel growth, Opportunity Austin has the potential to elevate its visibility and continue to expand its ecosystem through investments in South by Southwest Interactive, Innovate Austin, and Austin A-initiatives.

Opportunity Austin, the Austin Chamber, and the regional business community face a challenging political landscape in the City of Austin. While many feel that the shift demands the business community’s voice grow louder, others feel outreach and advocacy efforts must be more nuanced, inclusive and acknowledge that there is a “new day” for economic development within the city of Austin.
### 2016 Highlights

#### Austin
- Austin-based Indeed plans to hire 1,000 additional employees. Indeed moved into a new building in Northwest Austin, as well additional space Downtown.
- Another half dozen employers announce new or expanded operations each creating 500 or more jobs including Amazon, Apple, Facebook, Home Depot and Superior HealthPlan.
- Samsung Semiconductor announces plans to invest another $1 billion in its Austin manufacturing facilities and add hundreds of new jobs.

#### Bastrop
- Single-family housing permits hit five-year high in the Greater Bastrop area.
- AEI Technology to relocate medical device headquarters and assembly operations to Bastrop Business Industrial Park.
- Bastrop EDC acquires a downtown Bastrop property to develop as mixed-use retail/office infill.
- Hunter’s Crossing announces new 182-unit multi-family development.

#### Buda
- Deep Eddy closes on a 197,000 square foot manufacturing facility in Buda.
- Chip Semiconductor constructs a new 45,000 square foot facility in Buda.
- Speed Tech Lights expands with an additional 25,000 square feet.
- Two Wheel Brewing Company moves into 10,000 square feet.

#### Cedar Park
- TIG Real Estate completes two spec buildings (25,000 & 30,000 square feet) in Scottsdale Crossing.
- Comprehensive Healthcare Management relocates their headquarters creating 50 jobs.
- Industrial Group Southwest breaks ground on 230,000 square feet of spec office/logistics/manufacturing space.

#### Elgin
- Elgin City Council approves the construction of a new five lane boulevard to open up an area along highway 290 for retail, residential and business development.
- ATX Jerky locates to Elgin creating 7 new jobs.
- A new job grants program to assist new and existing businesses.
Georgetown

- Opens its first EB-5 project, the Sheraton Georgetown Hotel & Conference Center.
- Georgetown is ranked the fastest-growing city in 2016 with a population of 50,000+.
- Rentsch Brewery, Georgetown’s first micro-brewery, expands in 2016 to increase production by 10-fold and to add canning.

Hutto

- H-E-B anchors master-planned retail development completed in just 7 months.
- A 150% increase in site visits last year confirms new development is coming our way.
- Ranks #2 Safest City in Texas.
- City Council makes economic development the #1 priority.

Jarrell

- Sun Fresh Markets breaks ground on 28,000 Sq. ft. grocery store in Jarrell Town Center.
- Tractor Supply to open in late 2017 in Jarrell Town Center.
- Major infrastructure improvements: new interstate overpass at Bud Stockton Loop, increased water storage capacity and added ground storage water capacity.

Kyle

- High tech manufacturer, RSI Inc., announces expansion bringing 82 more jobs to the city.
- Kyle annexes 7,000 acres in the Summer of 2016, increasing the city limits by 50%.
- Austin Community College Hays Campus in Kyle announces $22.4 million expansion that includes a first responders training center.

Leander

- Austin Community College breaks ground on 100-acre Transit Oriented District (TOD) campus; Classes begin fall 2018.
- St. David’s Hospital commits to build a 51-acre health service campus in the TOD.
- The city initiates small business grant program for Old Town development with three grants awarded.

Lockhart

- Lockhart attracts 3 industrial projects adding over 100 jobs.
- SH-130/FM-142 west of Lockhart historic district attracts over $30 million of new capital investment including healthcare, logistics and new housing projects.
- The “BBQ Capital of Texas” continues to attract over 1 million tourists annually.
Pflugerville

- EOS, an industrial 3D manufacturing company, locates their North American headquarters to Pflugerville creating 75 jobs.
- Medway Plastics locates their southwest manufacturing plant and R&D lab to Pflugerville.
- Living Spaces to construct a 650,000 square foot fulfillment center creating 100 jobs.

Round Rock

- New $350 million Kalahari Resort to provide 975 hotel rooms and 150,000 square foot convention center.
- UPS to invest $70 million to construct a new distribution center in Round Rock.
- Insys Therapeutics completes third expansion with additional 30,000 square foot building and $20 million investment in new equipment.

San Marcos

- Amazon opens new 855,000-square-foot fulfillment center creating over 1,000 new jobs.
- Best Buy opens its first and only Texas E-Commerce Sales Operation Center in San Marcos.
- Forbes hails Austin-San Antonio MSAs as America’s Next Great Metropolis centered on San Marcos region.

Taylor

- Noren Products relocates from CA and constructing a 35,000 square foot headquarters providing 75 new jobs.
- Summit Manufacturing to construct a 44,000 square foot facility providing 75 new jobs.
- Texas Beer Company opens a brew pub in downtown and to construct a manufacturing facility with national distribution.

West Lake Hills, Rollingwood & West Travis County

- Two Class A office buildings under construction at Overlook at Barton Creek and at Walsh Tarlton Overlook, and 189 townhomes under construction at The Walsh.
- Eanes ISD and all 9 schools recieve top rankings by research site Niche, including Westlake H.S. named 4th best high school in Texas. Eanes ISD was 2nd in the nation, No. 1 in the state.
