For the 88th legislative session, we are encouraging legislators to work in a bipartisan manner to advance policies that strengthen our economy, create good-paying jobs, support small businesses and boost state investments into our education system. The entire state benefits from this economic growth and the Legislature plays an important role in advancing policies that improve the lives of all Texans and ensures that Central Texas remains a great place to live, work and raise a family. Join us for a day of meetings, speakers, and networking to help us advocate on behalf of Central Texas
